

MORE MADE EASY

Sysmex Customer Resource Center (CRC)

Key Benefits

1

Find guides and manuals for your analyzers 24/7

2

Virtually monitor your analyzers' statuses and take action as needed through Caresphere™ Analyzer Management (AM)*

3

Maintain your proficiency level through training and educational materials such as webinars, case studies, how-to videos, e-learning courses and virtual instructor-led training (VILT) sessions

4

Organize service history and Quality Control (QC) reports for your analyzers

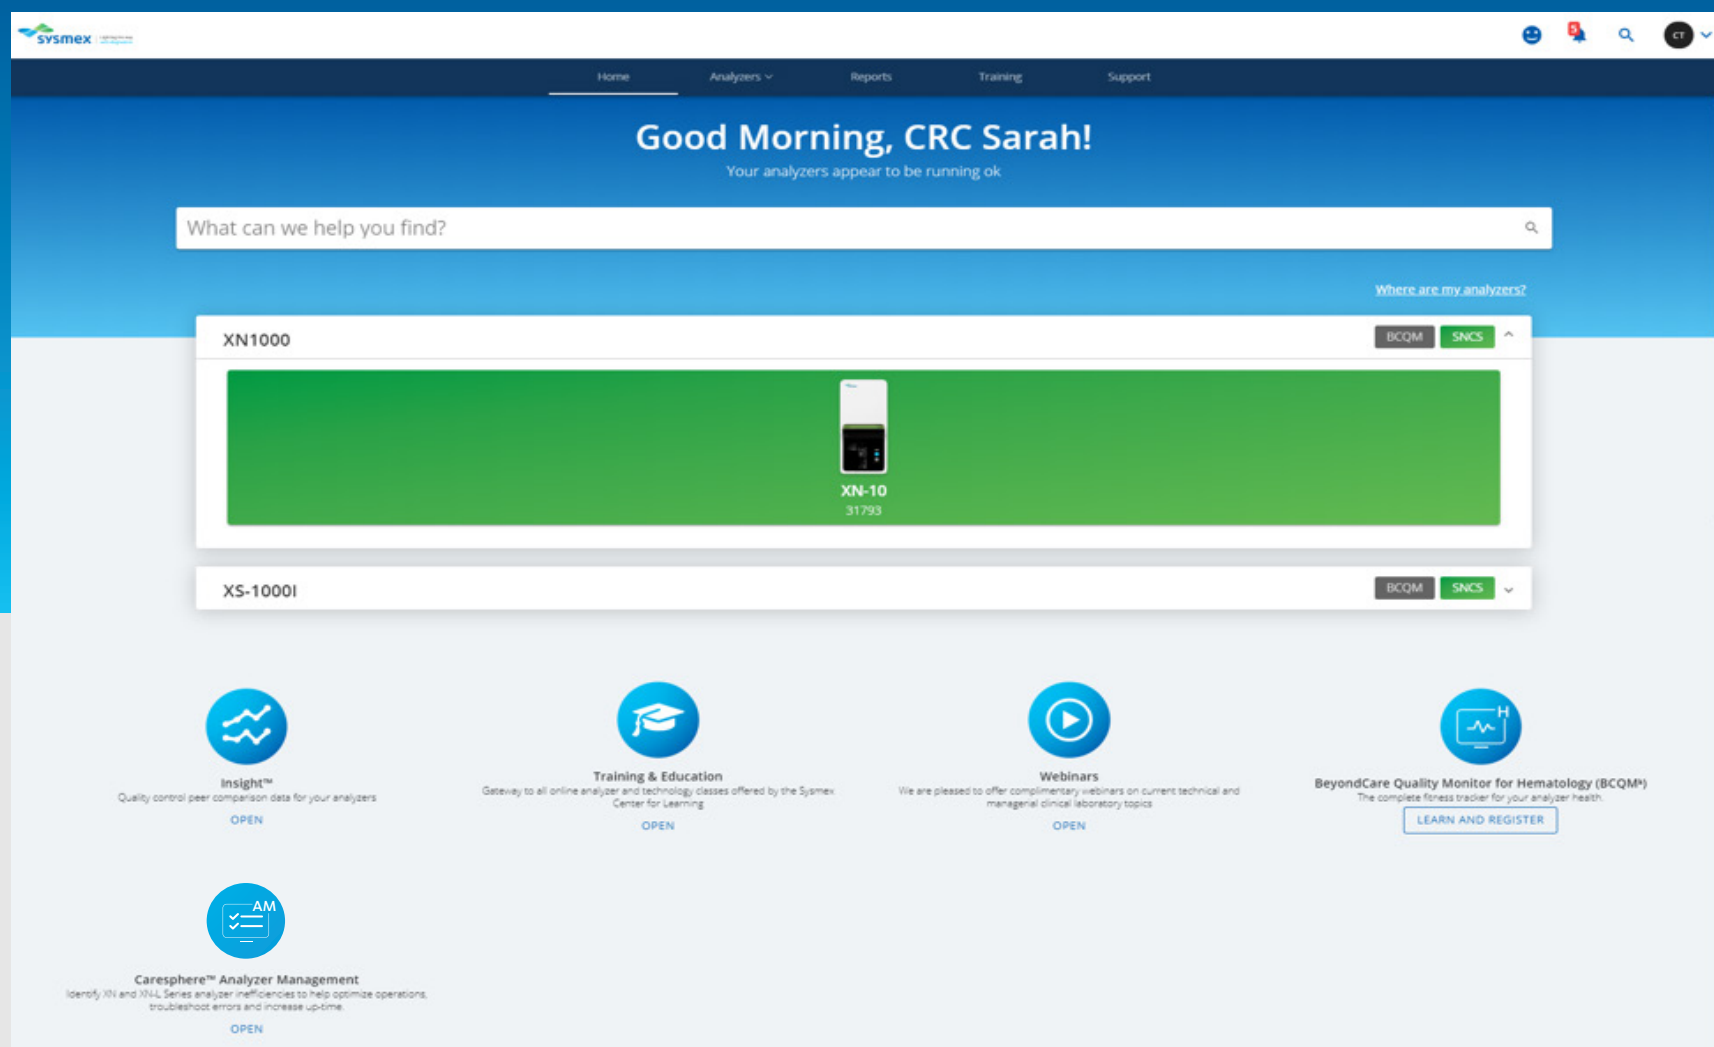

5

Keep up with Product Notifications through the *Message Center* alerts

6

Get help from Technical Assistance Center (TAC) and Customer Service via *Help Me*.

More Content - Easier to Use

Only Available on CRC - Caresphere Analyzer Management

Caresphere Analyzer Management is a dashboard to virtually monitor your analyzers' statuses and take actions as needed. Laboratory operational data is organized into impactful, actionable reports for quick and accurate decision-making to optimize productivity in laboratories.

Key Benefits

Real-time and periodical dashboards to optimize workflow

Easy access to service history, quality control (QC) and calibration reports

Simplified analyzer troubleshooting and logs of historical events
